JIANQIU WANG 70

Professor **Jianqiu Wang**, an author of a number of articles on Chinese oil shales published in the *OIL SHALE* journal celebrates his 70th birthday on the 17th of September 2003.

J. Wang graduated from Chemical Engineering Department, Beijing Petroleum College in 1956. Since that time till now she works in Beijing (China) at Chemical Department of Petroleum University (formerly Beijing Petroleum College) first as assistant and lector, then as associate professor, and finally full professor and graduate advisor. She took the duty of the head of oil shale division; taught the graduate courses “Fossil Fuel Processing” and “Oil shale Processing”.

For more than fifty-five years J. Wang has been involved in oil shale, coal and petroleum chemical and processing teaching and research work. She has published more than a hundred papers in international and domestic journals, edited and published four books in the above fields.

J. Wang was awarded national and ministerial awards for more than ten projects, among them successful designing and operating two pilot plants of coal pyrolysis and petroleum chemical processing.

The Editorial Board of the journal *OIL SHALE* wishes **Jianqiu Wang** good health, happiness and more years of successful creative accomplishments.
